

Available Sizes		
Width	Height	Tube Dia.
24' (7.3 m)	10' (3.05 m)	2.375"
30' (9.1 m)	11'-6" (3.5 m)	2.375"
35' (10.7 m)	14' (4.3 m)	2.875"

Connectors

Our connectors are the heaviest of any competing design. We manufacture using 1/8" wall tubing. The tubing is swaged to the inner diameter of the rafter tube for a tight and superior fit. The connectors are zinc plated post fabrication. A clear chromate is applied on top for additional corrosion protection.

FLIGHT PENS

Our modular steel structures can be used with any netting. We can design various combinations of open netting top on one end, fabric cover on the other. Structure for netting has rafters spaced 10 feet (3.1 meters) on center. Around the top, purlins are spaced every 5 feet to minimize netting sag. Supply your own netting.

Cable

With our design, the entire structure is tied together. This is not true of competing single truss designs. 3/16" cable is threaded through each row of purlins. The cable is tightened using forged turnbuckles.

Tube Finish

All rafter and tie down tubes are made from Gatorshield or galvalum coated tubing. Both coatings provided exceptional corrosion resistance. Tubing Strength is 50/55.

Our game bird feeders solve the persistent problem of keeping rain out of the feed trough. The rain shield interlocks with the body. The seamless upper shell of the body steps out over the rain shield such that rain would have to climb vertically for any leakage to occur.

Our game bird feeders are molded from polyethylene. Hindered amine light stabilizer, the most potent ultraviolet protection, is added to maximize the life of your investment.

JABF800

GBF175

Model No.: GBF175 (Q)
Description: Game Bird Feeder
Approx. Feed Capacity - lb(kg): 175.0 (79.5)
Bird Capacity: 125 Pheasants, 200 Quail (Q Model)
Dia. - In(cm): 37.0 (94.0)
Height - In(cm): 40.0 (101.6)
Shipping Wt./2 Pack - lb(kg): 73 (33.2)
*Extension available for 300 lb cap.

Model No.: JABF800
Description: Jumbo Bird Feeder
Approx. Feed Capacity - lb(kg): 650-800 (294-363)
Bird Capacity: 240-250 Pheasants,
Dia. - In(cm): 37.0 (94.0)
Height - In(cm): 40.0 (101.6)
Package Size - 1 Feeder
Shipping Wt./Pack - lb(kg): 73 (33.2)

Model No.: MPD20
Description: 20 Gallon Utility Fount
Water Capacity - Gal (L): 20.0 (75.7)
Bird Capacity: 200 hens
Width - In (cm): 14.0 (35.6)
Length - In (cm): 26.0 (66.0)
Drink Height In (cm): 3.00 (7.6)
Overall Height - In (cm): 22.5 (57.2)
Shipping Wt./Pack - Lb (kg): 25 (11.4)

FG200/75DR

Model No.: MPM10A
Description: Game Bird Drinker
Water Capacity - Gal (L): 10.0 (37.9)
Bird Capacity: 125 pheasants
Width - In (cm): 19.0 (48.3)
Length - In (cm): 38.0 (96.5)
Drink Height In (cm): 10.75 (27.3)
Overall Height - In (cm): 20 (50.8)
Shipping Wt./Pack - Lb (kg): 61 (27.7)

MPD20

Model No.: FG200/75DR
Description: Trough Waterer
Water Capacity - Gal (L): 2.0 (7.6)
Bird Capacity: 100 hens
Width - In (cm): 9.0 (22.9)
Length - In (cm): 29.5 (74.9)
Drink Height In (cm): 4.75 (12.1)
Overall Height - In (cm): 8.0 (20.3)
Shipping Wt./Pack - Lb (kg): 25 (2.7)

MPM10A
